

I wouldn't want to see the LPFM stations take priority over FM translator stations. We have been receiving KLOVE via translator for some time now and realize the benefit to our community. Without their ability to have these translator stations in areas such as ours, we wouldn't have their type of Christian music programming available to us. They are able to provide quality family broadcasting and support to the Christian population in our community. Please do not change the process in approving their type of programming.

Thanks
